

“I love rooms with a traveled and collected feel,” says designer [Cindy Rinfret of Rinfret, Ltd.](#) “The more time you spend in this room, the more you can discover.” Patterned grasscloth wallpaper and panels—designed in collaboration with [Nicolette Mayer](#)—and tiered, gold leaf lighting create a sense of harmony with the entry’s domed, Moroccan-influenced architecture. In the corner, a 1970s original Jansen palm tree adds a playful nod to Palm Beach.
