On My Bookshelf: Artful Decoration Interiors

Posted by [Kevin Sharkey](#)

Andrew Fisher and Jeffrey Weisman have created an unmistakable style all their own. The new coffee table book *Artful Decorations* makes just as big of a statement as any of their creations. In 224 pages, beautiful photographs of their best work capture the glamorous and sometimes extravagant nature of the spaces they design. In the foreword, Jeffrey Weisman explains how their "style" is merely a combination of their experiences, travels, and love for detail and hand-craftsmanship. Take a step back from the world of mass production and dive into the glamorous and elegant homes of Fisher Weisman and discover their inspiration.
