# Master Bedroom

AMY MORRIS, AMY D. MORRIS INTERIORS

***A TOWERING VELVET-TUFTED BED BEDECKED WITH LAVISH LINENS LEAVES NO QUESTION AS TO THE FOCAL POINT IN THIS MASTER BEDROOM BY AMY MORRIS.***

The grandeur of this piece is offset via the room's cool and calming color scheme; a soft blue on the ceiling casts an ethereal glow over the entire space. To fill the room's large volume, Morris selected pieces such as a walnut desk and commode to place on either side of the bed. A leather settee anchors an informal sitting area at the foot of the bed. "These pieces allowed me to add some layering and depth to the design. It also gave me a chance to flank the bed with something unexpected," Morris says. The dream-like aesthetic continues in the master bathroom, where a luxurious French bateau-style soaking tub and adornments like a silk window shade and a fluffy sheepskin bench radiate a quiet calmness.

*In both the public and private areas of the home,  
a feeling of tranquility permeates each room.*
