

This private residence designed by Art Dioli of [Olson + Lewis Architects](#) with interior design by [Kristina Crestin Design](#) was beautifully captured by Maine-based photographer [Jamie Salomon](#). I'm telling you guys, I'm in love with *everything* about this home...the blues and greens reminiscent of the sea, mix of patterns, abundance of sea-glass (love that [chandelier!](#)) and use of natural texture! The storage solutions and built-ins are fantastic too, and that gorgeous bathroom of course! The kitchen was recently featured in Boston Home magazine, read all about it [here!](#) I'm also loving Kristina Crestin's [blog](#) for more on her fabulous designs!

I hope you all have a great weekend! See you back here on Monday for a giveaway you won't want to miss!!
