

KITCHENS

A custom BlueStar stove and hood are set against a luxe geometric glass backsplash and white iceberg quartzite countertops.

BLUE LUXURY

The focal point of this Armonk, NY, kitchen is the show-stopping powder blue stove and hood by BlueStar that set the color scheme for the room. Painted walls, faux leather upholstery, rugs and accessories were all selected to match, creating a truly chic and feminine aesthetic. Cerused wood in a light finish was used for the custom cabinetry and the cleverly hidden built-in refrigerator.
