KELLY WEARSTLER

Mulholland China As with all of Wearstler's tabletop items, this pattern is designed to be mixed and matched with other pieces, but is striking on its own for everyday use. \$126-\$400

Ever since the **Viceroy Santa Monica** opened in 2002, redefining the boutique hotel concept, designer Kelly Wearstler has amassed a following of devotees enamored with her Hollywood Regency-meets-modern-glamour interiors. After stamping her mark on such now-iconic hotels as the Viceroy properties in **Palm Springs** and **Anguilla**, the Los Angeles-based Wearstler opened her own eponymous boutique on the city's trendy Melrose Avenue. The store marks her entrance into the world of retail, with home décor, furnishings, accessories, and fashion designs that she sees as a natural extension of her on-point interiors. Whether it's a subtle ashtray or a compelling sofa, Wearstler's goods offer a dose of whimsy and fun for any room of the home.

PUT IT TO USE IN DESTIN

"Though Destin [Florida] had its beginnings as a small fishing village, the communities throughout the area, especially the 30A corridor, are rich in cultural diversity. The arts are

highly emphasized, from musicians and artists to culinary masters and highly regarded fashion designers. In homes, whether

they are \$200,000 condos or \$5 million gulf-front houses, the feel is undoubtedly relaxed and beachy." —HILARY FARNUM,
