Artsy Accents

Gil Walsh Interiors combined traditional furniture with modern accessories in this classic yet eclectic Juno Beach dining room. A mélange of wood, metal, and mirror adds texture to the monochromatic palette, while subtle style lines straddle classic and contemporary design. Vintage wood tables provide the perfect visual counterpoint to eye-catching accents like black and clear resin candlesticks from Cyan Design and three-dimensional, circular wall art from Global Views. An aged-brass and mercury-glass chandelier, a sculpted metal pedestal table, and black and gold chairs complete the look. *West Palm Beach (561-932-0631, gilwalsh.com)*
