THE CURATOR

REGAN BAKER DESIGN

my name is regan baker.

Regan is a wife, mother of twins, and lover of all things design. She believes that organic textures, graphic patterns, and playful, yet artful designs are what create a cohesive and comfortable environment. Her current obsession is her 102 year old home.

Regan is sister to a cartoonist and architect, daughter to an artist, granddaughter to a seamstress and aeronautical engineer, and niece to a graphic designer. She was destined for design.

Regan LOVES what she does, and believes everyone else should to.
