

2016 JULIA MORGAN AWARDS

The Northern California Chapter of The Institute of Classical Architecture & Art (ICAA) celebrated the second ever Julia Morgan Awards last month.

The ICAA Chapter, which is dedicated to the advocacy of the contemporary practice in the classical traditions of architecture, design, and the allied arts including the preservation and appreciation of the architectural history of our region established the Julia Morgan Awards to recognize architects, designers, artisans, students, and patrons on a local level for their excellence in the contemporary practice and support of the classical traditions.

Named for nationally renowned Bay Area architect and classicist, Julia Morgan (1872–1957), the awards serve to laud practitioners for their work this year and for years to come. By doing so, the Chapter aims to educate laymen, students, and professionals about the enduring excellence, appeal, and importance of the classical traditions in design and honor those who contribute to its advancement. The Julia Morgan Awards are given to those individuals, firms, and patrons who practice and value these traditions in Northern California and, in turn, build on the enduring legacy of the great Julia Morgan. *Gentry Home* is proud to present a portfolio of the winners.
