DESIGN

Maloos Anvarian

DWM INTERIORS, INC.

Maloos Anvarian of DWM Interiors, Inc. is a Professional level ASID member and California Certified Interior Designer with over two decades of experience in Northern California. DWM Interiors' showroom is located in the SF DesignCenter's Galleria building and features her distinctive furniture line called, appropriately, "Maloos."

"Good design is rarely the result of chance," says Maloos. "It demands a clear vision – achieved when a designer marries the breadth of her expertise with a thorough understanding of the client's needs, desires and vision. Good designers bring certain strengths and a particular sense of style to the projects they work on. My strengths lie in my commitment to creating beautiful and harmonious environments and my belief that good design continues to reveal itself by retaining its beauty and appeal."

Maloos' active design practice includes collaborating with architects,

directing construction, remodeling interiors, acquiring art and antiques, and creating custom pieces of furniture for clients. Her work has been featured on HGTV and in a variety of newspapers,

magazines and books, and showcased in numerous Bay Area designer showcases. Maloos has been recognized with ASID's Design Excellence Award. Maloos holds a Master of Science Degree in Interior Design and Housing from the California Polytechnic State University, specializing in the Psychology of Color. She also studied art and interior architecture at E'cole Superior Des Arts Moderns in Paris.
