## ANDREA GOLDMAN

The founder of Andrea Goldman Design, this stylish interior designer and dresser just opened a chic office in downtown Glencoe.

**My fashion philosophy is...** laid-back but thought-out—sort of like my interiors.

**My approach to fashion is...** If I'm not comfortable with what I'm wearing, I get distracted. Plus, I want my clients to feel comfortable with me, so I often wear a good pair of jeans with a leather jacket and a necklace I love. That's my style, so when I'm meeting with a potential client, I feel confident.

**My favorite designers are...** Alexander McQueen is a favorite for when I want something structured but with some flair. I have a lot of his jackets. I wear a lot of Co, who are designers out of L.A., and I love Prada, which is what I'm wearing today.

**My fashion sense comes from...** I'm from Green Bay, Wis., so while I've always loved fashion, it wasn't about labels or brands. It was about caring how you put yourself together. When I was 10 or 11, my mom took me to Chicago to go shopping for something special, and I was blown away by all the fashion I'd never seen before.

### STYLE ICON

"I like how Aerin Lauder takes things that are relatively simple and adds something like a great necklace to make it fresh and young, but she never looks overdone, and she never looks like the clothes are wearing her."
