## BOLD TIMES

Scroll through Emily June Spanos' portfolio and you'll find room after room filled with daring doses of color. Spanos started her Houston-based interior design firm, Emily June Designs (emilyjunedesigns.com), three years ago, and she has been championing the use of lively hues ever since. "I feel like every space needs color," she says. "I really love layering color and texture to give a space soul." Spanos also believes in betting on the unexpected when it comes to color. "I love bringing in colors that you feel like might not necessarily go together," she says. "Using color is a way to think outside the box."

"THE REASON I USE COLOR IS BECAUSE I LIKE TO PUSH THE ENVELOPE WITH CLIENTS AND TRY TO GET THEM OUT OF THEIR COMFORT ZONE"

- EMILY JUNE SPANOS
