PALM BEACH DESIGN

STEDILA DESIGN PALM BEACH CABANA

This prestigious New York design firm creates a custom beachfront cabana with stylish outdoor amenities that befit a luxury Island lifestyle.

This island oasis affords breathtaking views of the ocean from the cabana deck. Chaise lounges are perfect for basking in the warm Florida sunshine and a table for two is on hand for alfresco dining.

PALM BEACH GARDENS, FL

TOP LEFT AND LEFT: Neutral tones define the custom cabana outfitted with a sofa from Bespoke by Luigi Gentile. A spiral stairway with glass railings descends to the patio area where the owners can relax poolside.

Interior designers John Stedila and Tim Button created this luxurious Palm Beach cabana with sweeping ocean views for their longtime client. They were asked to create a space to mirror the arc shape of the main house. "Round can be challenging," Stedila says. "Everything becomes a custom design from the rounded glass door to the sleeper sofa, all templated to the room's curves."

Stedila Design, Inc., founded in 1973, is known for its seamless signature style of creating spaces for real people that reflects their needs. Although Stedila's style sways towards the modern, he draws inspiration from classical forms, and Button's expertise in green design inspires his own high-end client base in both commercial and residential projects.
