

UNDER THE RUG
Hand-tufted Topo Fog rug, \$8,800 for 8 foot by 10 foot,
by Jamie Bush Collaboration

FAB COLLAB

Soft Landing "I had a client for whom I wanted to create a custom rug based on an abstract topographical map," explains L.A.-based designer Jamie Bush about the genesis of his first rug design in partnership with Marc Phillips, the **Jamie Bush Collaboration**. "The Marc Phillips team knew exactly how to achieve the effects I wanted," Bush says. "From primarily hand-tufting most of the rug to adding contrasted loop pile and carving the entire creation, it made it look as if it had been worn by the sand and sea." Available in three colorways, the collection contains an additional rug inspired by one of Bush's abstract paintings. "I have a high level of respect for Jamie's taste, style and eye for design," says Bobby Partial, founder and managing partner of Marc Phillips. "In a short period of time I have learned so much from him." 815 N. La Cienega Blvd., L.A., 310.652.9222, marcphillipsrugs.com —James Munn
