# History Made Hip

Interior Designer Kristina Crestin shares fresh ways to incorporate vintage finishes into your remodel. A bold floor of cement tile—handcrafted as it was centuries ago—sets a modern vibe. Timeless copper pendants and a matching sink accent the deep blues of this graphic pattern, and add a touch of shimmer. To complement the warmth of the copper, I like the Delta® Trinsic® Faucet in a handsome matte black. It's a strong statement piece that feels at home in spaces both old and new.
